Topic: General Information or Comments on Proposed Rules
Message: Cursive writing - you've got to be kidding. This is in a state whose per pupil spending is better compared to 3rd world countries and we think we need cursive writing in the curriculum. I am 62 years old and I took cursive writing in 1964 and I have never used it since. Please be responsible and use the few dollars we have for something useful, not nonsense like this! I very much appreciate a response, thx, Norm H 623-229-6738
